

**2019 National Young Farmers Educational Association Institute
December 11-14, 2019
Lancaster Marriott at Penn Square with World Class Convention Center**

Dear Young Farmer Supporter,

The Pennsylvania Young Farmer Association (PYFA) will be hosting the 2019 National Young Farmer Education Association Institute December 11-14th in Lancaster, Pennsylvania at the Marriott at Penn Square We look forward to hosting several hundred members from across the United States - including a large delegation from our home state.

The National Institute is an excellent event to showcase the area's agricultural landscape and products while also providing time and space for our members to learn, network and communicate with others in the agricultural and agribusiness community. Institute planning has already begun and tour locations in Lancaster

County and surrounding areas are being developed. It will take a large collaborative effort from members and supporters to showcase what makes us "Pennsylvania Proud" – the theme for the 2019 Institute.
